SUMMARY

Senior data analyst with more than 10 years of experience across AdTech, FinTech, and B2B/DTC SaaS. Builds analytical pipelines, leads BI platform migrations, and automates self-service dashboards that reduce reporting bottlenecks. Works with Engineering, Product, Sales, Client Success, Finance, and Marketing to turn raw data into scalable, actionable solutions.

PROFESSIONAL EXPERIENCE

NORTHFIELD MEDIA | Senior Data Analyst Jun 2025 – Present

- Led the end-to-end migration of reporting dashboards from Domo to Metabase, refactoring and optimizing custom SQL queries to improve performance and maintainability at scale.
- Worked with Data Engineering to audit and resolve staging-to-production table discrepancies across high-volume pipelines, bringing data accuracy to within a 0.005% margin of error.
- Translated business requirements from Engineering, Marketing, AdOps, AdTech, and Sales into scalable analytical solutions.

TILLPOINT | Senior Data Analyst Mar 2023 – Jun 2025

- Drove an 18% increase in sales productivity across inbound and outbound campaigns by analyzing lead conversion funnels, call outcomes, and agent performance metrics.
- Developed a merchant segmentation classifier with Finance, Data Engineering, and Product, showing that portfolio businesses were twice as common as previously estimated.
- Implemented role-level security across Power BI dashboards, giving Sales Leadership, Finance, and Agent Team Leads reporting tailored to each group.

VERDANT CONSUMER BRANDS | Manager, Analytics Apr 2022 – Feb 2023

- Led the end-to-end migration from Mode Analytics to Tableau, building standard e-commerce and omnichannel dashboards that reduced manual reporting time and let non-technical stakeholders do their own analysis.
- Cut overall BigQuery runtime by 10% by refactoring complex SQL queries with CTEs.
- Prepared and integrated large-scale data sources using dbt, Python, and SQL, improving pipeline reliability and data access.
- Mentored team members in Tableau, Mode Analytics, and SQL, raising the team's analytical quality.

HIREWAVE | Manager, Analytics Jun 2019 – Apr 2022

- Reduced average handling time by 14% by analyzing call volumes, resolution times, and CSAT scores to find service bottlenecks and streamline support workflows.
- Built data marts in Presto using SQL, creating certified single-source reporting layers for analysts across the organization.
- Modernized company KPIs and implemented Tableau dashboards used across departments.

KESTREL PRODUCTS | Data Analytics Manager & Business Analytics PM Aug 2015 – Jun 2019

KEY ACHIEVEMENTS

- 30% faster A/B test decisions at Northfield Media:** Built a near-real-time A/B test monitoring pipeline processing millions of records daily, with automated threshold-based alerts that let the AdTech team catch and pivot on underperforming tests within hours.
- 9% higher retention and 12% more upsell revenue at TillPoint:** Built call center dashboards with predictive models in Power BI, which also surfaced new product development opportunities.
- 35% higher sales ROI at TillPoint:** Analyzed agent performance, deal quality, and sales progression to improve sales strategy while maintaining overall sales throughput.
- 20% better first-call resolution at HireWave:** Designed and automated churn risk models and reporting tools that also increased customer retention.
