LinkedIn for Recruiter Search

If your profile doesn't contain the exact words a recruiter is searching for, you don't exist to them.

WHAT THE RECRUITER TYPES

```
("backend engineer" OR "senior engineer")  
AND (Python OR Go) AND "New York"
```

Boolean

WHERE YOUR PROFILE NEEDS THE WORDS

HEADLINE — HIGHEST WEIGHT

Senior Backend Engineer | Python, Distributed Systems

New York · Open to senior IC roles

ABOUT

Eight years building **backend** services in **Python**, mostly in payments and fintech. Comfortable across **Go**, Postgres, Kafka, and AWS. Based in **New York**.

EXPERIENCE

Senior Backend Engineer · Acme Pay

Built **Python** and **Go** services for payment routing. Stack: Django, gRPC, Kafka, Postgres, AWS. Team of 8.

AND required terms

Each must-have must appear once

OR synonyms

"ML engineer" + "machine learning"

" " exact phrases

Standard titles, not company jargon
